

## SECURITY Reminder

Unfortunately, there are scammers out there trying to obtain information regarding your identity or spreading viruses through the internet. They often falsely represent a legitimate company with whom you do business.

*AgStar will never send you an email requesting you to verify or provide your login, personal, or account information.*

- Never give out your information to a third party unless you initiate the contact
- Never reveal passwords or personal information via email
- Never click on an unknown link; delete email immediately

**It's a trick! Do not click!**

**PHISHING:** A method of identity theft carried out through the creation of a website which seems to represent a legitimate company. The visitors to the site, think they are buying something from a real business and sometimes submit their personal information. The criminals then use the personal information for their own purposes, or sell the information to other criminal parties.
